Moved by Mr. Patterson that Mr. Hugh Sparks be engaged as Van Driver for transportation of pupils from the Aspen S.D. to Bloomington.

Mr. John Callas Dies at Ripe Age

There passed away at the local hospital on Saturday January 29th, a former old time resident of Wainwright, Mr. John Callas, who recently returned here to live after residing in Jasper for the past couple of years.

Suffering from an attack of the prevalent influenza he was taken to the hospital but despite every care and attention he passed on as stated above.

He was born at Livermere Suffolk England in 1862 and came to Canada in 1920. Later he came to Wainwright in 1923 where he settled with his family and has resided since. His wife predeceased him in June of 1940.

He leaves to mourn one son, Charles, three grand-daughters, Rossie, Margaret and Annie, of Wainwright; three grand-sons, Jack, Alex, and Edgar who are overseas, and two great grand-sons.

Funeral services were held on Monday, January 31st, in the St. Thomas (Ang.) Church at 2 p.m. where Rev. L. Bralant performed the last rites, for this beloved old citizen. Interment took place in the Wainwright Cemetery with Mr. Leod's Funeral Parlor in charge.

The pallbearers being as follows: Mr. H. Smart, Mr. B. Hodgkiss, Mr. G. Graham, Mr. W. Milner, Mr. S. Torg, and Mr. A. Adams.

Floral offerings of remembrance and esteem were received from: The Family, Mr. and Mrs. H. Smart, Frank and Nancie, Mr. and Mrs. Adams and family, Mrs. Lally and Joyce, Donnie Rutherford, Mrs. Telford, Mr. and Mrs. S. Torg and family, the Ganderion family, C.B. of R.E. Wainwright.

Ann. Cr. Union Meet. Held In Provost

Seven credit union officers visited the annual meeting of the Provost Savings and Credit Union Ltd. at Provost February 2.

Both credit unions were organized last April. Mr. H. A. Koch gave a talk on some of activities carried on at Wainwright's credit union also a talk on credit union principles and possibilities. L. A. Myggland was called upon to explain how it came about that Wainwright organized. Upon response Mr. Myggland explained that through the Gerald Farm Forum a study group was set up later organizing the credit union. D. Rattray Jr. gave a short resume of the credit union's duties and stated that the Wainwright credit union has loaned over \$1200.00.

President Gillis of the Provost credit union thanked Mr. Koch for the splendid interpretation he gave of the credit union spirit. The meeting moved a vote of thanks to the three Wainwright speakers.

At 7:30 P.M. the officers met to discuss credit union problems. The largest individual share account of both credit union stands at \$95.00. Among the more important points of discussion was the Credit Union League of Alberta and credit union insurance.

The visit to Provost was claimed educational to both credit unions. The Provost credit union officers will soon visit a meeting here.

Memorial Service In Wain. United Church

Wainwright United Church was crowded to the doors at the Sunday evening service with a sympathetic congregation who attended to show their respect to the memory of one of Wainwright's boys P.O. Gordon Schlitt, whose death in action occurred last week.

Rev. A. D. Richard conducted the service assisted by a large choir, which rendered special music.

The preacher took for his text Galatians 1-4 "He gave Himself," and the following thoughts were expressed in the sermon.

The greatest thing that the sacred writers could say about the Christ was that he gave Himself. The greatest thing that has ever been said about the lives of brave men and women is that they gave themselves for the uplift of others. For a noble cause and in a country's crisis men may give their wealth, which may be destroyed and forgotten; but it is the sacrifice of life that has laid the foundation of liberty and freedom in lands where past generations have lived in peace and safety.

Our boys have come forward seeking neither glory of conquest nor loot of sacked cities. They came forward free men and with many other boys from Wainwright district Gordon knew, as every one ought to know, that the life that shields only itself is the life of a coward, life that gives itself is life at its best—the life of a hero.

Good men and good deeds are immortal. Gordon with his comrades gave himself and they being dead speak to us.

Our brave sleep well, by their labors won.

While the crosses speak unto those who mourn.

As they lift their weeping eyes; For a righteous God, to whom all is bared.

Will judge the deeds that the warriors dared.

And the depths of their sacrifice. P. O. Gordon Schlitt, R.C.A.F., was 20 years old. He enlisted immediately on leaving Wainwright high school and was commissioned before going overseas. For some five years he acted as Secretary of the United Church S.S. and was active in young people's sports and activities in Wainwright.

Wedding Bells

A quiet wedding was solemnized at the United Church Parsonage on Wednesday, February 2nd, when Miss Helen Chernasook, Metlakow, Alberta became the bride of Mr. Joseph Stanley McKinney of Cousins, Alberta.

Rev. A. D. Richard officiated at the marriage ceremony.

At the statutory hour of 12 noon on Monday last, Returning Officer Don Pawsey made declaration that Messrs J. Robinson and R. Leggett (these being the only names put into nomination for the two vacant seats on the Town Council) were elected members of that body by acclamation.

To fill three vacancies on the Board of the Separate School District, Messrs F. G. Conroy, L. J. Killoran and C. W. Stafford were the only nominees and thus received the office by acclamation.

For the office of trustee on the Public School Board, three nominations were made for the two seats, those thus honored being Mr. C. E. Callas, Mrs. A. A. MacKenzie and Mrs. A. M. McLeod. This will necessitate an election on Monday next to decide the issue unless either one of the nominees decides to withdraw by noon today. (Wed.)

Word has just been received that Mr. C. E. Callas has withdrawn his name and therefore no election will take place.

Miscellaneous Shower

For Bride Elect

A pleasant time was spent on Monday evening when Mrs. Guy Pigeon and Miss Helen Chynoweth entertained a number of her friends in honor of Miss Marguerite Caron a bride-elect of this week.

Numerous games and contests filled the evening before the guest of honor was presented with a dainty pink and white basket of gifts and best wishes for which she fittingly thanked those present.

At the close of the evening a delicious lunch was served by the hostesses.

CURLERS HOLD MEETING

Members of the Curling Club and those interested in the game met at the curling rink on Monday night and it was decided that a fee of \$5.00 be charged for the men's season ticket and \$3.00 for ladies and minors.

It is hoped to get underway immediately on the rinks beginning with a square draw. Come on you curlers!

CARD OF THANKS

I wish to thank Dr. Wallace and all others who extended their kind help and sympathy during the recent illness and death of my beloved father Mr. John Moore.

MRS. JAS. WADDELL
Hope Valley Berta.

CARD OF THANKS

We sincerely wish to thank Dr. Wallace, the Hospital Staff, Mr. and Mrs. F. E. McLeod, Rev. L. Bralant and Mr. S. Thompson for the kindness and sympathy shown us during our recent loss of loving wife and mother.

Provincial Officers Help in C.G.I.T. Week

Miss Pat East of Wetaskiwin, President and Miss Valerie Wheeler of Calgary Vice President, representing Canadian Girls in Training in Alberta will take part in this year's C.G.I.T. program. These officers, elected at Camp Councils from Nova Scotia to British Columbia for the first time this past summer, represent forty thousand girls and are an added link in the national unity of Canadian Girls in Training, the programme of Christian Education for teen age girls within the Protestant church of Canada.

These provincial officers will assist in the special program arranged for the week of February 6 to 12. They have sent special messages to all C.G.I.T. groups in Alberta.

"Followers of the Way" is the theme chosen for C.G.I.T. Week this year. It will be used in Church Services, parents and family nights, mother and daughter banquets and further joint activities of boys and girls. C.G.I.T. Week following immediately National Boy's Week.

A special Girl's Number of "The Torch" will be issued to make the introduction of the Provincial officers. This will carry photographs of all Provincial Presidents as well as an illustrated story of C.G.I.T. and other features of particular interest to teen age girls.

WHAT IS C.G.I.T.

The ideal C.G.I.T. group is the Sunday School class meeting in the mid-week. The purpose is the development of Christian character through vital connection with the whole life of the church. Mid-week programmes include worship, business, project, activity, games, singing, with fun and fellowship as important factors. The success of a group is judged in terms of growth, knowledge, skills, attitudes, Christian citizenship, relationships in daily living.

Provincial Girls' Work Boards, their secretaries direct the planning of programmes and other work. National direction is given through the National Girls' Work Board of the Religious Education Council of Canada by means of publications and the work of the National Girls' Work Secretary, Miss Muriel W. Jacobson, M.A. Provincial Camps are promoted during the summer.

Council Seats Filled

By Acclamation

At the statutory hour of 12 noon on Monday last, Returning Officer Don Pawsey made declaration that Messrs J. Robinson and R. Leggett (these being the only names put into nomination for the two vacant seats on the Town Council) were elected members of that body by acclamation.

WAINWRIGHT, WEDNESDAY, FEBRUARY 9th, 1944

PRICE OF VICTORY

The days are moving quickly to-
 ward the bitter and decisive phase
 of this terrible drama of a world
 at war. General Eisenhower, who
 has made no rash or foolish state-
 ments, has said that victory will
 come in the west in this year 1944.

Victory! It is easy for us to seize
 on the word as though it were
 something without cost, something
 already accomplished. It is easy to
 delude ourselves, as we have deluded
 ourselves too often in these four
 and a half years of war. "Hitler is
 mad," we said with a strange con-
 fidence, as though a madman lead-
 ing a mad nation might not be the
 world's undoing.

"The Maginot Line," we said, as
 if there was alchemy in the word
 to protect us from the inevitable.
 Then it was revolution in Germany.
 We waited day by day, confident of
 its coming. When that failed we
 thought of bombing Germany into
 submission in a short space of
 time and at relatively small cost.
 But Germany has survived them.
 Now, because events turn in our
 favor, we think of victory as almost
 won, though we ourselves did not
 accept defeat when the successes
 were the other way. We are delu-
 ding ourselves when we believe that
 victory can be ours without a bitter
 cost.

The other day Peyton C. March,
 the old gray general who as Chief
 of Staff put two million Americans
 into France in the Great War, of-
 fered slim comfort to those who be-
 lieve the war almost won.

"You can't whip Germany," he
 said, "by whipping somebody in
 Sengambia. This country is in for
 a shock when the able-bodied
 soldiers start pouring out and the
 wounded start pouring in. This war
 hasn't even started. Wait until
 Germany and Japan start fighting
 on their own soil. Look at Russia,
 where even the children fight inch
 by inch to hold their fatherland.
 We can lose this war right here at
 home, thinking it's almost over."

These are cold words. They are

worth remembering. They tell of
 something we too must learn. When
 the story of this war is fully told,
 the word "Ortona," and the names
 of other battles yet to be, will be
 written on Canadian hearts by
 sacrifices as cruel as were those of
 Vimy and Passchendaele and Cam-
 brai.

Yes, victory may come in 1944.
 But before that day comes, before
 we must face its terrible cost, it
 will be well for us here at home
 to search our own hearts. For youth
 will be searching its heart in these
 days, praying for life, praying for
 courage, praying for devotion,
 praying in that unselfish comradeship
 that makes courage and devotion
 possible.

And we - we men and women at
 home, as we sit by our bed at night
 dimly realizing that the trial is at
 hand and that it will touch us all -
 what will we be thinking? Will we
 be wondering whether we should
 take holiday from the shift? Of
 ways to circumvent this rule or
 that? Of whether we couldn't use
 our money to better advantage than
 investing it in this cause? Of what
 personal advantage we can secure
 from the strained situations induced
 by war?

Or will we be thinking of the
 boys, to whom life is as dear as it is
 to us, who are holding these young
 lives so lightly, waiting for the
 hour, ready for the sacrifice?

Surely the price of victory is a
 common sacrifice.

Ottawa News Letter

OTTAWA, January 18: Confid-
 ence that the majority of girls now
 in the Canadian Women's Army
 Corps will be ready to settle down
 to Normal Civilian life when the
 war is over was expressed in Win-
 nipeg recently by Lieutenant-Colonel
 Mary Dover, commanding officer
 of the C.W.A.C. basic training cen-
 tre at Kitchener, Ontario.

Lt-Col. Dover said that she be-
 lieves girls will be better prepared
 for civilian life as a result of the
 excellent training they receive in
 the Corps. They have no illusions
 about glamour in the Army, she

said. Many have been doing hum-
 drum jobs for 18 years, and still
 execute their duties with the same
 conscientiousness.

If any members of the Armed
 Forces Overseas were lacking in
 cigarettes during 1943 it was not
 the fault of the Overseas League
 (Canada) Cigarettes and Tobacco
 Fund. Col. E. A. Deacon, Director
 of Auxiliary Services, Ottawa, has
 announced that 118,850,000 ciga-
 rettes were despatched Overseas for
 servicemen - and women - during
 the past year.

Troops in Newfoundland also re-
 ceived 2,270,000 cigarettes. Col.
 Deacon said, while prisoners-of-war
 were sent 5,277,300. In addition,
 1,937,200 match folders were also
 despatched to servicemen.

Residents of Halifax are more
 conscious of time today than they
 have been for the past 31 years.
 Gunner Alfred Finch, who for the
 past six years has officiated as
 noon-time gunner for Halifax, is
 firing his 12 o'clock signal with a
 new gun. After 31 years' service,
 the veteran 12-pound breech loader
 has been replaced by an 18-pound-
 er, whose blank charges are consid-
 erably louder than those of its
 predecessor.

Strains of the Bridal Chorus from
 Lohengrin have been heard in many
 strange surroundings, but seldom
 has a more unusual place for a
 wedding ceremony been selected
 than a Prisoner-of-War camp deep
 in the Canadian Rockies.

Yet there is where Mrs. Mary
 Gear, of Calgary, became the bride
 of Lieut. G. Mullin, V.C., M.M., of
 Moosomin, Sask. The company of
 the Veterans Guard of Canada to
 which Lieut. Mullin, a former ser-
 geant-at-arms of the Saskatchewan
 Provincial Legislature, is attached
 at present on guard duty at the in-
 ternational camp.

Lieut. Mullin, hero of World War
 I, received the Victoria Cross for
 storming a pill-box at Passchendaele.
 Residents of Moosomin group his
 name with that of Lieut. Gen.
 A.G.L. McNaghton as typical of
 Moosomin citizens who have attained
 high military fame.

Midnight mass in the armory of
 Les Fusiliers Mont-Royal on Christ-
 mas Eve, 1943, held special signifi-
 cance for several of the partici-
 pants. Former prisoners-of-war, they
 had spent the Christmas Eve, of
 1942 behind Nazi barbed wire.

Indicative of the importance
 which National Defence Headquar-
 ters attaches to the Canadian Wo-
 men's Army Corps is the fact that
 the number of uniformed girls now
 employed in Ottawa has become so
 great as to necessitate the opening
 of a Fourth Corps barracks.

Located in the University of Ot-
 tawa Oval, the new barracks are an
 example of the latest design in prac-
 ticability and comfort. Approx-
 imately 400 girls will be accommo-
 dated there.

Capt. Helen Graham, formerly
 Officer Commanding the C.W.A.C.
 company in Washington, D.C., is
 in charge of the company.

The recently inaugurated air
 mail service from Canada to Great
 Britain and the Mediterranean areas
 for service personnel is proving
 highly successful, National Defence
 Headquarters has announced. This

special service is handled jointly
 by the Royal Canadian Air Force
 and Trans-Canada Air Lines.

While preference, of course, will
 be given in air transportation to
 mail specially prepaid to go by air,
 as much ordinary mail as the plan-
 es can carry will also go by air.
 N.D.H.Q. officers have stated. Thus
 every effort is being made to see
 that troops get their letters at the
 earliest possible moment.

It is pointed out, however, that or-
 dinary mail will only go by air
 when there is space in the carrier
 planes. Obviously, the way to en-
 sure fast delivery is to pay the air
 mail rate or to use blue letter forms
 or Airgraphs.

Three and a half years ago, Dor-
 ceen Cooper, of Surrey, England,
 came to Canada as a war guest. Ten
 months ago Miss Cooper came of
 age, and immediately offered her
 services to the Canadian Women's
 Army Corps, and was accepted.

Now Private Cooper, the English
 girl is again overseas, a member of
 a C.W.A.C. draft posted to England.
 It was a dramatic moment when
 she met her mother following ar-
 rival overseas, the first time she
 had seen her in three and a half
 years.

In Canada, Private Cooper resid-
 ed in Windsor, Ont., prior to en-
 listment.

Support Demand Car License Cut

Demand of the Alberta Motor
 Association for a reduction in
 motor car licenses have been fol-
 lowed by support for the movement
 in fresh quarters.

In annual convention in Edmon-
 ton, the Alberta Farmers' Union,
 which has a membership of over
 17,000, passed a resolution calling
 for a reduction in motor car and
 truck licenses. It asked that the fees
 be cut at least as low as they are in
 some other western provinces.

Commenting on the A.M.A.'s cam-
 paign for lower licenses, the Ed-
 monton Journal said it was under-
 stood the request was receiving
 "favorable consideration" at the
 hands of the government.

In B.C., it is claimed, the govern-
 ment has indicated that those mo-
 torists who are on a minimum allow-
 ance of gasoline, being in the "AA"
 category, are certain to be given re-
 ductions in car license fees this
 year.

As the provincial legislature in
 Alberta will meet on Feb. 10, it is
 anticipated that there will be an
 early decision by the government.

Policy for Forage Crops In Alberta

The establishment of a perman-
 ent type of agriculture in this
 province is dependent on a more gen-
 eral use of forage crops. Adequate
 soil conservation, practical weed
 control, successful live stock pro-
 duction and efficient farm manage-
 ment require the employment of

grasses and legumes in the crop-
 ping programme.

The Alberta Department of Agri-
 culture has designed its Forage
 Crop Policy to lead definite en-
 grass and courage to farmers
 who wish to purchase forage crop
 seed. This encouragement consists
 of making grass and legume seeds
 available to farmers at cost, freight
 prepaid, and the establishment of
 numerous agencies throughout the
 province where farmers may ob-
 tain information as to prices, place
 their orders and later, take delivery
 of their seed. Information and re-
 commendations pertaining to for-
 age crop seeding and management
 practices prepared by agricultural
 authorities will also be available
 from these agencies.

There is a strong demand for Al-
 berta grown grass and legume seeds
 on the export market and much of
 the 1943 production will have
 moved out of the province before
 the spring of 1944. The Department
 of Agriculture has reserved con-
 siderable quantities of Alfalfa, Red
 Clover, Alsike, Timothy, Brome and
 Crested Wheat Grass seed for Al-
 berta farmers, but the supply is
 definitely limited, and orders can
 only be accepted while these re-
 serves are available. Only those
 farmers who place their orders
 with the local agent at an early
 date can be assured that seed will
 be delivered.

Seed shipments will arrive in the
 early spring and farmers will be
 notified as to the date on which
 delivery will be made. The District
 Agriculturist will plan to be pre-
 sent at that time, and would be glad
 to discuss seeding and management
 problems with those who are tak-
 ing delivery of seed.

"I Dare Say" ... a new series of
 interesting, informative commen-
 taries conducted by Richard J.
 Needham, is now heard over CJCA
 at 9:30 every Sunday evening.
 These talks replace Mr. Needham's
 former series, "The Words of Win-
 ston" which won such wide popu-
 larity and acclaim with radio listen-
 ers throughout Alberta. Listen for
 "I Dare Say", every Sunday at
 9:30 P.M.

Would you like to get good Cana-
 dian dollar bills for such things as
 a coffee bean, a horse hair, a broken
 toothpick? Then listen to the
 new, entertaining program "The
 Funny Money Man", heard over
 CJCA every Tuesday night at 9 o'
 clock. A post-card with your name
 and address sent to "Funny Mon-
 ey" - CJCA, puts you in line for
 some of this easy money. Send it
 today and listen to the "Funny
 Money Man", next Tuesday evening
 at 9:30.

Steel helmets half shrapnel. In-
 vest quarters in War Savings Stamps
 and save a Canadian soldier!

A suit of warm army underwear
 costs \$2.30. Ten War Savings
 stamps will more than do it. Buy
 them regularly!

Buy 11 War Savings Stamps and
 you buy a sweater for a fighting
 Canadian!

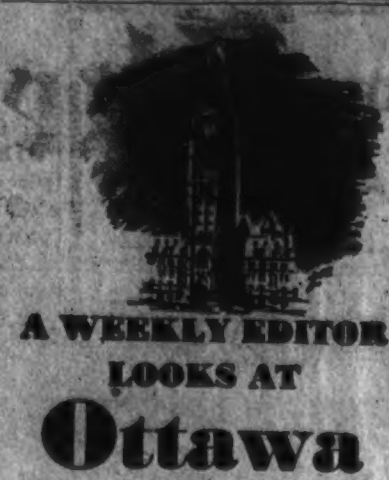

A soldier has to eat. Four War
 Savings Stamps will buy him two
 mess tins. More Stamps will keep
 the tins filled with food. Buy them
 regularly!

It's a good idea to form a
 regular saving habit for future
 security - It's a better idea to
 place your savings with your
 own TREASURY BRANCHES.
 Your local branch manager
 will gladly show you the
 THREE savings plans avail-
 able at all Treasury Branches.
 There is a plan best suited
 for your own needs - whether
 you deposit savings regularly,
 or whether you wish to
 leave funds on deposit for
 a specified period of time.
 It pays financially and in
 satisfaction to deposit savings
 with your own TREASURY
 BRANCHES. See your local
 manager soon!

H. A. KOCH, Manager
 WAINWRIGHT

Parliament Hill is somnolent-
 looking no more as the House is in
 session again; there is a fresh lilt
 to the walk of most folks coming
 up Wellington Street and entering
 in at the big ornate gates leading
 to the Peace Tower entrance; the
 members, from town, city, farm,
 mine and fishing village are back
 on the job-democracy starts click-
 ing again. Ottawa storemen were
 given a jolt the other day when a
 brisk salesman was around offering
 flags and bunting for sale, to be used
 for Armistice Day. No, he wasn't
 a bit early, he explained, this was
 the armistice when this war ends.

The next jolt may be coming to the
 salesman and others thinking the
 same way. That well known Ottawa
 landmark the 140,000 gallon water
 tower which reared above the Ex-
 perimental Farm auditorium, crashed
 to the ground when fire destroyed
 the building recently.

We think of salvage as a civilian
 job, but it might interest you to
 know that the Army goes in for it
 in a big way, saving millions of
 dollars annually. A recent National
 Defense report showed that 826,000
 pairs of boots and shoes were re-
 paired and restored to service.
 They operate a boot repairing plant
 which can produce 1,500 pairs each
 week, using uppers stripped from
 condemned boots. Articles scrap-
 ped and resold realized \$410,351.
 Reconditioned by contract, we
 noted, were damaged enamelware
 and galvanized utensils, including
 more than a thousand boilers and
 twenty thousand jugs, bowls, mugs
 and plates. Clothing repair and
 tailor shops made over three mil-
 lion repairs to garments of all kinds.

One of the interesting people at
 the national meeting in Ottawa of
 the 14 Regional Consumer Branch
 chairmen of the Wartime Prices
 and Trade Board was Mrs. Cameron
 Dow, lately appointed rural advisor
 to the branch. She is national pre-
 sident of the Federation of Wo-
 men's Institutes. Mrs. Dow in plain
 language said: "If inflation is ever
 allowed to get hold in this country,
 we're sunk. I remember what hap-
 pened in the last war, and after.
 Even though we sold some of our
 stuff at a high price the things we
 had to buy were higher and in the
 long run we were worse off than
 before. That must not happen
 again." Mrs. Dow proves her faith
 in the value of checking prices by
 keeping accurate account of her
 purchases in her "Little Blue Book".

National income is supposed to
 give a pretty good indication of the
 national welfare. The Dominion
 Bureau of Statistics points out that
 for eleven months of 1943 it showed
 an increase of 18.4 per cent - a
 total of \$8,072,000,000 - over the
 similar period a year before. Pro-
 duction and transport of munitions
 and war supplies were the main
 generators for this huge amount,
 putting it at the highest level in
 Canadian history. Coincident fig-
 ures are interesting too. The index of
 mineral production upped a little
 but gold receipts and coal produc-
 tion declined. Manufacturing pro-
 duction index showed an increase
 of 21.5 per cent. There were ad-
 vances in operations of flour mill-
 ing, meat packing, and in the to-
 bacco industries, with a recession in
 newsprint output and of steel and
 iron. And Canada's domestic and
 foreign exports hit the astounding
 figure of \$3,001 million, three times
 that of the pre-war 1938.

The Minister of Labour is issuing
 an order, which will put the onus
 on employers to check male em-
 ployees of military call-up age to
 see if they have complied with

mobilization regulations. An em-
 ployer will include Dominion, pro-
 vincial and municipal governments
 as well as private business or farm-
 ers, even where the employee is a
 son or other relative of the farmer.
 Americans are really big invest-
 ors in Canada. A United States
 Treasury census reveals that Ameri-
 can-owned property in foreign
 countries reaches over the nine
 billion dollar mark, 34 per cent of
 this being in Canada.

If you sometimes wonder why
 banks have increased staffs, put it
 against the large number of cheques
 that are issued, for one thing.
 Cheques cashed against individual
 accounts aggregated \$53,797,000,000
 during 1943, a new point in Cana-
 dian history, too. Be sure to read
 that amount correctly, because it
 sure is passing the bucks and no
 fooling.

Agricultural Notes: The depart-
 ment advises potato growers to
 order their 1944 seed potato re-
 quirements without delay, and a
 list of growers have Certified.
 Foundation A or Foundation seed
 can be got from Plant Protection
 Division, Dept. of Agriculture, Ot-
 tawa. As for potato acreage a five
 per cent increase is wanted for
 this year. Ontario, Manitoba and
 B.C. have each agreed to 10 per cent
 more acreage; Quebec and Alberta
 will aim for 5 per cent, the Mari-
 times with 1943 plantings greater
 than a long-time average will main-
 tain level of production, as will
 Saskatchewan. ... An increase of
 nearly one-third over the 1943 out-
 put in maple syrup and products
 is being asked, representing about
 three million gallons on a syrup
 basis. ... Marketings of lambs and
 sheep off Canadian farms and ran-
 ches in 1943 is also expected to be
 up 5 per cent over 1942. ... Corn,
 however, looks for a jump of 53 per
 cent over 1943 acreage - nearly
 400,000 acres - which was the es-
 timate quoted at the joint agricul-
 tural conference in Ottawa. ...
 There will be plenty of vegetable
 seeds like peas, beans, carrots,
 onions, radishes, lettuce, tomatoes,
 swedes, etc. available for 1944
 spring planting because the Agricul-
 tural Supplies Board arranged a
 production programme in the
 spring of 1943. We are informed
 that about 65 per cent of the Cana-
 dian production of vegetables and
 field root seeds were grown in
 British Columbia last season.

Mail for the Boys and Girls Overseas

In eight recent trips a giant 4-engined
 Lancaster in the Dominion Govern-
 ment's trans-Atlantic Service operated
 by Trans-Canada Air Lines carried for
 Canada's active forces overseas over
 30,000 pounds of mail—approximately
 two million letters—between Montreal
 and Great Britain.
 The Canadian Postal Corps estimates
 that the average Canadian soldier
 writes three letters in seven days and
 receives almost four, which gives some
 indication of the vast number of letters
 that must be despatched by all forms of
 transportation each week.
 All personnel handling mail consider
 letters as tremendously valuable factors
 in the war effort and their safety and
 forwarding are treated with just as
 much care and importance as are ship-

ments of planes, tanks, guns and shells.
 Letters are regarded as an important
 influence in maintaining the morale of
 the boys and girls in the armed forces
 overseas. Transporting mail is only one
 of the military missions for which the
 Lancasters in the Dominion Govern-
 ment service are used. They also carry
 passengers on important war business,
 as well as tons of critically needed ma-
 terial to our fighting forces.

Upper photo shows the big mail
 load for one of the flights being
 placed in the passenger cabin of a
 Lancaster by security police of the
 Royal Air Force Transport Command.
 The mail bags alongside the aircraft
 were placed in the nose, as well as in
 the cargo compartment located in that
 part of the plane formerly used as the

bomb bay. The lower photo shows Miss
 Lena Desjardins, a T.C.A. employee
 doing her share to beat Hitler by assist-
 ing in loading the mail carried
 by the big Lancasters to the Canadian
 servicemen and women overseas.

Farm Notes

ALFALFA AS A PROTEIN SUPPLEMENT

(Experimental Farms News)
The increase which has taken place in livestock and poultry production in Canada in the past few years has resulted in increased demand for protein supplements. At the same time there has been a shortage of these supplements.

Fortunately there are many vegetable proteins which can be successfully produced on most farms, and of these, alfalfa is probably the best if properly cured, states A. G. Kusch, Dominion Experimental Station, Scott, Sask.

Because of its high protein content, nearly on a par with wheat bran, alfalfa assumes a position of importance more than ever before. It is not only rich in digestible protein, but contains appreciable amounts of vitamins for young growing animals.

Alfalfa thrives on almost any kind of soil that has good drainage and is not too acid. It seems to do especially well on the lighter loams and sandy soils in north-central Saskatchewan.

Used as a green pasture during the summer months, alfalfa is not only a valuable source of protein, but also supplies necessary minerals and vitamins. As hay it is also a valuable source of protein, but care should be taken in harvesting to retain as much of the protein content as possible. When cut before bloom, and properly cured, alfalfa hay contains about 14 per cent digestible protein; when cut about mid-blossom, the protein content drops to about 11 per cent; and drops still further, to about 10 per cent, if cut when about three-quarters of the plants are in bloom. It has also been determined that the leaves contain about 22 per cent and the stems only 10 per cent of the digestible protein.

Bearing these points in mind, it would appear that the best time to cut alfalfa for hay in order to retain as much protein as possible, consistent with yield is at the commencement of bloom. Besides, early cutting will improve the prospects of a second crop.

Since the leaves contain considerably more protein than the stems, it is desirable that as much of the leaf as possible be retained. This not only means cutting in a young stage, but entails special care with haying operations. The hay should be only partially cured in the

swath before raking into windrows for completion of curing. The use of equipment which harvests from the windrow and cuts down on handling is desirable for avoiding loss of leaf.

RUNNING THE INCUBATOR

Ideal conditions for the incubation of hens' eggs include a temperature inside the egg of 99% to 100 degrees, appreciably more carbon dioxide in the air surrounding the eggs than in normal air but not more than 1/2 of one per cent and enough humidity to keep the eggs from losing too much moisture but still not enough to produce a "soft" chick which results when too much water remains in the egg at hatching time, says Dr. S. S. Munroe, Poultry Division, Central Experimental Farm, Ottawa.

There are two kinds of incubators, 1), the still air machine and 2), the forced draft type. The former are small machines holding from 50 to 600 eggs, usually heated by a coal oil lamp from which either hot air or hot water circulates through pipes or a chamber a few inches above the eggs. These small machines should be run in a room or basement where the temperature is fairly constant (65 - 70 degrees) and should be perfectly level on the top to prevent heat inside from pocketing in one corner. Only a single layer of eggs can be placed in the trays and the temperature is measured by a hanging thermometer, the bulb of which is 1/4 to 1/2 inch above the eggs. The thermometer should read 103 degrees to provide the right temperature inside the egg.

There are usually vent holes in the top and bottom of such machines which are so arranged as to take care of the carbon dioxide and at the same time regulate the humidity. Shallow pans are placed under the egg trays and water should be kept in them when they are in a heated room. However, in a basement or an unheated room in late spring or summer no moisture is required. The eggs should be rolled over by hand at least three times per day, but it is not necessary to cool them. When proper temperatures are maintained in such machines, poor hatches are generally due to inadequate feeding of the breeding stock.

The forced draught machines are so-called "mammoth" incubators and hold anywhere from 1000 to 50,000 eggs in one chamber. Such machines are generally run by experts who need little advice. In these machines the air is kept in circulation throughout the chamber by fans or agitators. They are not subject as much as the small machines to changes in outside temperatures but the operator must carefully regulate airflow and humidity to avoid too little or too much carbon dioxide or humidity running the hatch. Humidity is most accurately measured by a wet bulb thermometer which should read from

84 to 86 degrees when the air temperature is at the ideal of 99% deg. Most of the air should keep recirculating within the machine in the early stages only a small volume being exchanged with outside atmosphere. As hatching time approaches the vent holes should be gradually opened from 10-22nd day they are fully open.

In machines with water thermostats, the temperature will be found to vary directly with the barometer. Daily variations in barometric pressure are mainly responsible for daily temperature variations. At the Central Experimental Farm variations as much as 3 degrees within a few hours have been found to be entirely due to such atmospheric changes. As long as the machine maintains a temperature between 99% and 100 degrees at normal pressures for a locality it is not necessary to adjust the thermostats each day to offset changes in the barometer.

HEALTH

Someone once said that a "touch of imagination and venturesome spirit" were two requirements of a good cook. After all, without a pinch of imagination and a desire to try something new or different once in a while, meals are apt to become pretty monotonous. Especially is this true at the present time when the variety of foods available is limited.

Vegetables suffer, more than most other foods, from lack of

imagination on the part of the cook. Take cabbage for instance - how many ways do you serve it to your family?

Here are some ways it can be served with very little effort. First, we have Five Minute Cabbage. Shred the cabbage very fine, and cook covered, for 5 to 7 minutes in a little, rapidly boiling water. Serve it in hot tomato sauce, hot cheese sauce, or just plain with a little butter. When you cook cabbage in this manner, quickly in a little water, it is not limp, tasteless or soggy; it's slightly crisp and delicious.

Cabbage lends itself also to a scallop. Try it in alternate layers with cream sauce, and if possible add about 2 tablespoons of chopped celery. Sprinkle with breadcrumbs. It's good.

Or try alternating layers of cabbage and thinly sliced apple, seasoned with salt and pepper and, if the apples are very sour, a tablespoon of sugar. Sprinkle the top layer of this scallop with crumb, dot with a tablespoon of butter, and bake in a moderately hot oven at 375 degrees for 30-40 minutes, or until tender.

It has a taste that is faintly reminiscent of sauerkraut.

C.P.R. Express Finds and Ships Reindeer for Hollywood.

George McMurray, traffic solicitor for the Canadian Pacific Express Company at Edmonton, Alta., was the "Santa Claus" who provided four reindeer for Paramount Pictures in Hollywood when that company had to have them for scenes in "Road to Utopia", forthcoming film on the Alaska gold rush, starring Bob Hope, Bing Crosby and Dorothy Lamour.

He had a recollection of "a fellow somewhere in Saskatchewan driving a reindeer" when the word went out that the film capital had to have atmosphere for the picture. He checked with the publicity office of the Saskatchewan Government in Regina and found J. J. Dalke of Porcupine Plain, between Hudson Junction and Tisdale, was the "fellow". He had nine reindeer, all trained.

Having found his man, Mr. McMurray made arrangements to ship immediately and in the top picture the Canadian Pacific Express man had his picture taken with Mr. Dalke (left) and the unusual cargo. Also provided

for "Road to Utopia", but naturally segregated from the reindeer for shipping, were 27 sleigh dogs, with the lower picture showing some of the huskies being trained at Ryan's Farm at St. Albert near Edmonton.

Mr. McMurray's claim always has been "the Canadian Pacific Express can ship anything" and the reindeer and the huskies he lined up on this assignment makes it no idle boast. The reindeer—five-year-old Cupid, a lady; and Dunder, Francor and Dancer, males aged six, two and three—required a specially heated car and their diet of turnips, carrots, potatoes, cabbages and grain also called for special care.

The reindeer were available because Mr. Dalke, their owner, refused to believe those who said it was impossible to train and harness the creatures. He has dehorned the four who fill the Hollywood bill, an omission which the property department likely will remedy. The reindeer must be back from the United States in 29 days, according to the first permit issued on them.

ADVERTISING

(A MESSAGE TO LOCAL MERCHANTS)

It is difficult for us to conceive of any single force which weilds so great an influence in our life as advertising — yet, how many people stop to consider what advertising really is.

Advertising is any means or method of communication of essential information as to where, when and how a commodity or service may be obtained — and WHY IT IS DESIRABLE.

Before people will buy, they must be 'sold.' They must make up their mind that they want the goods or service more than any other product their money will buy — more than they want to keep the money.

But how can a person find this magic formula of convincing prospects "WHY IT IS DESIRABLE"?

The answer lies in the product or service itself —

- Why do people buy your product now?
- How do they use it?
- What does it do for them?
- Where do they use it?
- When do they use it?
- How often do they use it?

Take a pencil and write down the answers to these questions. Study your answers and you'll have the basis on which to build your advertising message.

Then your next job is to tell them "Why it is desirable" from their point of view. Remember, they are interested in their own wants and needs—not in a lot of adjectives making boastful claims. The public doesn't care how big your firm is or how old it is — they are interested in themselves, their health, their happiness, their family and their own beliefs.

Fix this thought in your mind: "WHY IT IS DESIRABLE FROM THEIR POINT OF VIEW" — and you will achieve success in your advertising.

Your local newspaper has proven that it is the most desirable medium for many sales messages — what about yours?

Hints for the Household

Decaffeinated Coffee
Use one rounded tablespoon of decaffeinated coffee for each cup (5 pint) of cold water. Set percolator basket in hot and put coffee in it. Cover. Percolate slowly and gently 15 to 20 minutes, or longer than ordinary coffee, to obtain full strength of decaffeinated coffee. (For a four-cup percolator, use 4 cup coffee.)

Mocha Cream Pie Frosting
1/2 cup butter
1 1/2 cups confectioners' sugar
1 tablespoon cocoa
1 tablespoon hot decaffeinated coffee
1/2 teaspoon salt
Cream the butter, add the sugar, salt and cocoa gradually, and beat until well mixed, moistening with the decaffeinated coffee. Fill a baked pie filling and top with the frosting, which should be about as thick as mashed potato.

Lunch-Box Tips
The intelligently prepared lunchbox plays an important role in the health of our great army of school children and industrial workers. Sandwiches with their endless variety of fillings provide needed energy and body building material. Fruits and vegetables give protective substances as well as pleasing texture and flavor variations. Oranges are especially welcome because of their juicy freshness and high content of vitamin C—the anti-fatigue vitamin which we must have every day since it is not stored in the body. Oranges replace the bottle beverage if lunch must be packed in a paper bag.

Introducing two delicious new desserts which lend themselves to a nutritious New Year.

More People Young in the New Year
Year at home this year than ever before—what with difficult traveling conditions, war jobs, etc. But even in the quietest of celebrations, desserts such as Holly Leaf Ice Cream and Maraschino Cherry Rennet-Custard certainly helped start the New Year off right nutritionally. In fact, these desserts will reappear time and time again on your dinner table now that New Year's Eve has become a thing of the past.

And please note this delicious ice cream may be made by using light cream instead of heavy cream! Here are the recipes for your culinary consideration:

Holly Leaf Ice Cream
1 rennet tablet
1 tablespoon cold water
2 cups light cream
1/2 cup sugar
1 1/2 teaspoons vanilla
Maraschino Cherries (red and green)

Dissolve rennet tablet by crushing in cold water. Warm cream, sugar and vanilla slowly, stirring constantly. Test drop on inside of wrist frequently. When COMFORTABLY WARM (110 deg. F.) not hot, remove at once from heat. Add dissolved tablet, stir quickly for few seconds only. Pour at once, while still liquid, into refrigerator tray. Let stand at room temperature until set—about 10 minutes. Freeze until firm. Remove from tray to bowl, break up with fork, beat with electric or rotary beater until free from hard lumps but still a thick mush. Pack quickly into individual paper cups and place in freezing compartment to finish freezing. Garnish with Holly leaves.

Holly Toppings Cut tiny circles from red maraschino cherries. Cut

leaves from green cherries. Arrange in form of holly leaf on individual ice cream cups.

Maraschino Cherry Rennet-Custard
1 rennet tablet
2 tablespoons cherry juice
2 cups milk (not canned)
2 tablespoons sugar
teaspoon almond flavoring
10 maraschino cherries (chopped)
Divide maraschino cherries among 4 or 5 individual dessert glasses. Dissolve rennet tablet by crushing in cherry juice. Warm milk, sugar and almond flavoring slowly, stirring constantly. Test a drop on inside of wrist frequently. When COMFORTABLY WARM (110 deg. F.) not hot, remove at once from heat. Add dissolved tablet and stir quickly for a few seconds only. Pour at once, while still liquid, over chopped cherries. Do not move until firm—about 10 minutes. Chill.

Delightful Orange Surprises
The Navel orange is now on the market. Women who love to construct original salads or novel desserts are now assured of firm, colorful orange slices with no seeds to flip away with the spoon. Use the whole orange—juice, slices and peel. Make candied orange peel and marmalade. Then you will be prepared to serve all of the delicious dishes below—dishes that will delight the family and produce envious "ohs" and "ahs" from your guests:

Simple Orange Salads
Peel and slice oranges, allowing one orange for each person to be served. Arrange on beds of shredded lettuce, cabbage or other salad greens. Serve with any desired salad dressing.

For variations Top the orange slices with 4 or 5 dates or cooked prunes, stuffed with peanut butter, or alternate orange with slices of unpeeled, red skinned apples.

War Savings Certificate Help Win the War—Buy

Orange Peel Marmalade
This marmalade saves left over peel from the juicing task. It is a delicious spread for toast, or a sauce for fruit. The Navel oranges coming into harvest are just right for it, and it's just right for that extra touch for breakfast toast or the lunch-box sandwich.

Combine 2 cups thinly sliced orange peel; 1 whole lemon, sliced; 5 cups water. Cook until very tender, about 1 hour. Add 1/2 cup sugar to each cup of the cooked fruit. Cook in small portions, 2 or 3 cup lots, in a sufficiently large kettle to prevent the rapidly boiling mixture from running over. It should give the jelly test in 10 to 15 minutes. Yield: about 3 pints.

Lemon-Carrot Marmalade
Your victory garden carrots combine with lemons for this marmalade. It has a beautiful color and a very pleasing flavor. The carrots in this recipe increase vitamin A. making it a good marmalade to spread on thick when the butter is thin.

Extract the juice from 3 lemons. (There should be 2/3 cup.) Grind the lemon shells. (There should be 1 1/2 cups.) Wash and scrape carrots and grind enough to make 4 cups.

(This will take about 5 carrots.) Combine lemon juice, ground carrot peel and ground carrots, with 5 cups water. Heat to boiling and boil about 30 minutes, to soften the lemon and carrot. Add 1 cup sugar. Continue boiling about 10 or 15 minutes longer, or until mixture thickens. Pour into sterilized glasses or jars. Cover with paraffin. Yield: about 5 cups.

Broiled Breast of Lamb
1 breast of lamb
Salt and pepper
Butter or other fat
This is a very delicious dish, but the broiling must be done carefully. If the fire is too bright, the meat will soon scorch. Turn the inside of the lamb toward the fire and broil very moderately; turn the meat often. When done, spread thinly with butter or other fat and season with salt and pepper.

The breast of lamb is sold in most markets with the foreleg attached; this should be cut off before the piece is broiled, because it is thick in comparison with the rest of the piece and therefore is difficult to cook sufficiently by broiling.

BUY WAR BONDS & STAMPS

THUMBS DOWN ON DULL MEALS

MAGIC'S CARAMEL CURLS
2 cups sifted flour
1/4 tsp. salt
1/2 cup shortening
1/2 cup chopped nuts; any kind, or raisins
4 eggs, Magic Baking Powder

1 egg
1/2 cup milk
1/2 cup brown sugar
1/2 tsp. vanilla

Mix dry ingredients together. Cut in shortening until mixed. Beat egg slightly in measuring cup; add milk to make 1/2 cup; add to first mixture. Roll out 1/4-inch thick; sprinkle with brown sugar and nuts. Roll up for jelly roll. Cut in 1-inch slices. Stand on end in well-greased muffin pans. Bake in moderate oven (375°) about 20 minutes. Make 18.

PLAN TO MAINTAIN HOG PRODUCTION During 1944 and 1945

Every good quality hog that can be produced during the next two years will be needed.

The current bacon contract is for two years. It guarantees bacon prices and the delivery of 900 million pounds of bacon over the contract period. To help Britain maintain her present weekly ration of 4 oz. for each person Canada will try to deliver 600 million pounds of bacon this year.

IMPROVE QUALITY

Quality premiums of \$3.00 for each Grade A carcass and \$2.00 for each Grade B1 carcass have been authorized. They increase the net profit in hog production and emphasize the urgency of improving quality to protect the after-the-war position on the British market.

Hog Production is Profitable

After allowing reasonable feed allowances and liberal overhead charges to cover all possible costs the following net returns can now be expected from feed grains fed to hogs:

Wt. of Hog Live Lbs.	Selling Price per 100 lbs. dressed	Value of Hog	Quality Bonus B1 Grade	Returns per Hog	Returns for grain	Value of grain per 100 lbs.
200	\$15.00	22.50	2.00	24.50	17.50	1.75
200	15.50	23.25	2.00	25.25	18.25	1.83
200	16.00	24.00	2.00	26.00	19.00	1.90
200	16.50	24.75	2.00	26.75	19.75	1.98
200	17.00	25.50	2.00	27.50	20.50	2.05

Grade A hogs on which \$3.00 Quality Bonus is paid will return an additional 10c. per hundred for the grain used.

A Chartered Bank is
ONE WHICH COMPETES WITH NINE OTHERS
for your business

These ten competing banks are:

Bank of Montreal

The Bank of Toronto

The Canadian Bank of Commerce

The Dominion Bank

Imperial Bank of Canada

The Bank of Nova Scotia

The Provincial Bank of Canada

The Royal Bank of Canada

Banque Canadienne Nationale

Barclays Bank (Canada)

A chartered bank is the custodian not only of your money on deposit but also of your secrets concerning that money.

A CHARTERED bank is an institution where the details of your bank account are kept secret.

It is called "chartered" because its permission to do business and the conditions and restrictions under which it may do business, are contained in a charter granted and kept up-to-date by parliament, the finest democratic free institution of government that man has yet devised. This charter is an Act

of Parliament laying down all of the conditions which safeguard your money.

Ten competing chartered banks are the very opposite of a State Monopoly such as would come about if all the banks were rolled into one by nationalization. Under State Monopoly, if you failed to get accommodation at the one bank, you could not go to any one of nine others to seek it. You can today

EDGERTON
The 130th Victory Wheel draw took place in the Drug Store on Saturday and was won by Neil Lacey with No. 16.
The late Cletis McPeak was buried on Tuesday, Feb. 1st, at Wainwright, following a Service in Edgerton, Father Lavoie officiating.

The Board of Trade held their regular meeting at the Laurie Hotel on Tuesday. The meeting was well attended. It is sincerely hoped that some arrangements will be made so that a dining room may be opened up to take care of a long standing need.

Two of the Groves family (Wilma and Irene) are visiting their parental home to join their brother, Sgt. Bob Groves, who has passed as an Air Gunner and is now on leave.

The Edgerton Curlers visited Chauvin Bonspiel in force and kept their end well up in the play.

Paradise Hockey team came down on Wednesday to play Edgerton and took back the honors. Several old players turned out to help the locals, their efforts resulting in many stiff limbs.

Mr. French, C.P.R. Inspector was a business visitor here Wednesday.

Happy Montgomery went to Provost Hospital last Sunday and we regret to hear that Mrs. Montgomery who recently returned from the same hospital, had to be taken to Edmonton on Friday's flier.

Marjorie Mitchell was a visitor to Edmonton, where she received dental treatment.

Mr. and Mrs. Darling received a telegram from their son, Worthy, who has been in England over two years, to say he is now in this country and hopes to be home on leave soon.

The picture "Blondie for Victory" was shown here on Friday and Saturday.

The Annual Meeting of the Village Ratepayers was held on Friday evening. R. J. McKay was re-elected Councillor.

T. Townley Smith, District Agri-

culturist, was here Friday and has arranged for a free Picture Show along educational lines, to be held in Pawsey's Hall on Feb. 14th.
Jimmy Miles of the R.C.A.F. is home on a 48 hours leave.

Don't forget the Red Cross Concert and Dance which will be held in Pawsey's Hall on Friday next, February 11th.

GREENSHIELDS

Mrs. J. Tilbury and family returned to their home at Melita, Man., after visiting relatives and friends in the district.

A well attended meeting of the War Service League was held in the Hall on Wednesday evening. Mrs. T. Ratray and Miss W. Jones were winners at cards while Mrs. J. Tilbury and Lloyd Haynes received the consolations. Committee in charge were Mrs. G. Reid and Mr. Lloyd Haynes.

Mr. Purv Patterson was a between train visitor this week.

The Greenshields Grazing association held a meeting in the Pool Elevator office last Tuesday afternoon.

HEATH

Mrs. Arthur Patterson is visiting her parents at Wetaskiwin for a couple of weeks.

Aspen school is being closed and a couple of pupils from their district will attend the Heath school for the rest of the term.

Miss G. Zajic was a week-end guest at the home of Mr. and Mrs. R. Jones.

Mr. and Mrs. Reg. Wiley and children of Ardrossan spent the week-end here.

A number of the school children are home with the flu these days. The epidemic seems to have spread through the school this past week.

World of Wheat

H. G. L. Strappe,
Director, Research Department,
Searle Grain Company, Ltd.

**A GLOBAL WAR
A GLOBAL PEACE**

We have all been told that this is a Global War. We have only to glance at a globe of the world and to note the many areas in the world where fighting is taking place to realize that this term GLOBAL WAR is correct.

This Global War, however, I for one suggest will certainly require a Global Peace if we are to have any assurance that another depression will not occur on these prairies, and that World War number three will not break out in a few years. A Global Peace means simply that the fruits of the earth, the food-stuffs, minerals and other products of Nature deposited in different parts of the World will have to be made available on reasonable terms to all mankind.

This decidedly will require some thing approaching International Free Trade, a tearing down of existing high Canadian tariffs; all as the Atlantic Charter requires. Yet already we hear of a campaign to maintain existing Canadian trade-strangling evil tariffs and quotas which for years have prohibited foreign goods coming into our country. There is but one way to offset this "nationalistic" campaign which is for everyone who believes in the freedom of trade to make his voice heard, for groups to pass resolutions and to forward them to Ottawa, and for individuals to write to their respective Members of Parliament.

**ITEMS OF INTEREST IN
THE WORLD OF FOODSTUFFS**

U.S. Government wheat stocks decreased from 268,312,000 bushels on January 1st, 1943 to 92,315,000 bushels on December 31st, 1943. Per's 1943 wheat crop is estimated at about 3.7 million bushels, less than half of that country's requirements. Famine conditions are reported threatening in northern Italy as a result of the German food requisitioning policy.
Reports from Turkey and the

Balkans indicate the condition of the new crops as favourable. The harvest is nearly completed in the Argentine and yields are reported satisfactory in most sections of the country. The main rice crop in India is reported in excellent condition, particularly in Bengal.

**More FOOD NEEDED
As Victory Draws Nearer**

As the United Nations invade the Axis-dominated countries, famished populations as well as our fighting forces must be fed. The need for food increases as victory draws nearer.

Canadian farmers are confronted with a heavy task, which may be made easier through the use of bank credit. The Bank of Montreal stands ready to make every reasonable loan which will promote an increase in food production in the world emergency.

If you need to borrow to improve your production of food, do not hesitate to talk with our nearest branch manager.

NEWS & VIEWS OF TOWN AND DISTRICT

BORN—To Mr. and Mrs. Hill of
Wainwright, at the Wainwright
municipal hospital on February
6th, a girl.

Mrs. Ed. Ganderton and her
daughter Mona returned home
Saturday night from a holiday at
the coast.

Mr. Ben Ludditt formerly of the
Ordinance camp was here over the
week end visiting friends.

Mrs. Martha Harden and son
Gerald left for Edmonton on Tues-
day for a few days to visit her
mother Mrs. Retch.

Mr. Ben Rush is here from Win-
nipeg buying cattle throughout the
district.

We learn that Mr. Harry Driver
has bought the F. W. Watts farm
and Mr. and Mrs. Watts are moving
to town to reside in the Sorgen
house, which they have purchased.

Father Ehmann returned home
the end of last week after a holiday
spent in the States visiting relatives.

Master Lorne McLeod is in the
hospital where he underwent an
operation last week following an
attack of appendicitis.

After a holiday spent with relatives
and friends in Vermilion and
Aurora, Miss Evelyn Hetherington
left on Friday nights flier for the East.

AFTERNOON LISTENING PLEASURE

Mr. Geo. Glass was home from the
city over the week end to visit his
family here.

Dr. Middlemass spent Saturday
in the city on business.

According to word received from
M.D. No. 13 two more of our local
men have "donned the khaki" in
the person's of Messrs. Seth Oldham
and Gordon Carl who have both en-
listed in Canadian Active Army.

We are happy to report our
editor, Mr. W. J. Huntingford came
out of the hospital on Monday last
but is still confined to his home.

The card party sponsored by the
O.E.S. Connaught Chapter, which
was cancelled last week, will be
held on Friday, February 18th, in
the Masonic Hall when a goodly at-
tendance is hoped for.

Cpl. Doug. Jackson, R.C.A.F. was
in town on leave over the week end
on a visit to his father Mr. Harry
Jackson who is still confined to the
local hospital.

Miss Jean Dixon who is nursing
in an Edmonton hospital was home
over the week end visiting her par-
ents.

Mr. and Mrs. H. U. Taylor, accom-
panied by Mr. and Mrs. Ewart Tay-
lor of Hope Valley motored to the
city over the week end to visit their
mother Mrs. A. J. Taylor, who is
seriously ill in an Edmonton hos-
pital.

Mr. J. Patterson is still in the
hospital and Rev. L. Wilson is help-
ing manage the store during his
absence.

Miss Marguerite Bruner went to
the city Monday night to spend a
short holiday with her sister Mrs.
W. C. Huntingford there.
